

**We're improving the electric system
in your area**

August 2020

CENTURY PARK CONDOMINIUM I
3934 SW 8TH ST STE 303
CORAL GABLES FL 33134

Dear Neighbor,

We understand how much you depend on reliable energy and we're continuously working to make it better. In fact, we're working on a project in your area that will help improve the reliability of the energy grid in good weather and bad.

This project will require transmission power line pole replacements and upgrades along the existing line easement to enhance reliability in Miami-Dade County. The project begins along the easement south of West Flagler Street east from Southwest 92 Avenue and along Southwest Second Street to the Palmetto Expressway in Miami. Work is scheduled to begin this month and is expected to be completed by November.

In order to perform the pole replacement and upgrade work, bucket trucks and large cranes will be necessary to access the power line pole structures. The majority of the work will take place between 8 a.m. and 5 p.m. Monday through Friday. We will do everything possible to keep any power interruptions to a minimum while this work progresses. Should an outage of 15 minutes or more become necessary to complete the work, we'll notify you at least five days in advance and provide details at that time.

We pledge to work safely and respectfully in your community, as well as make reasonable efforts to minimize construction-related noise and any other inconveniences to you or your neighbors. We do not anticipate requiring access to your property; however, should it be necessary to access your property, we will notify you when FPL-approved contractors will be in your neighborhood. We plan to make interim repairs to restore sidewalks and grounds to ensure the safety of the area after the work is completed. We will make permanent repairs once construction is complete.

Should you have any questions concerning this project, please call 1-800-693-3267, Monday through Friday, between 9 a.m. and 5 p.m. Please refer to Flagami-Riverside T20436 Pole Replacement and Line Upgrade project.

Sincerely,

A handwritten signature in black ink, appearing to read 'Carlos Candelaria'.
